1.	DD/PTOS 202 <input type="text"/>			<p>Please review the attached draft of a uniform non-disclosure agreement proposed for utilization in connection with the APEX special access control system. Provide comments to OS/PPG by <u>COB 22 Feb 80</u>.</p> <p>I offer the following comments about the proposed Uniform Non-disclosure Agreement:</p> <p>(a) I agree with NSA's first objection that is the agreement ignores other designated intelligence categories. This shortfall is clearly visible in para 5 of the agreement. Certainly the government's need to review an employee's publication or speech is to weed out any classified data in subject item, not just sensitive compartmented information.</p> <p>(b) It strikes me that the last sentence of para 6 of the agreement is out of place. The statement that the government may take away individuals' access at any time should stand alone and not come at the end of a paragraph that spells out a specific reason for removing an individuals access. I believe the statement concerning the removal of an individual's access by the government should follow the existing para 9 of the agreement. Last but not least is as a layman to security knowledge, it beats the hell out of me to what the author is trying to say in para 8 of the agreement.</p>
